Our Mission

We strive to capture beautiful, meaningful and artistic images of your wedding day and provide the highest quality service and products available. We do this because we love our craft and because we understand that your memories are priceless treasures.

The Value of Professional Wedding Photography

Your wedding is one of the most important days in your life. After the day is over and all the decorations are down, the food is consumed, and the dances have been danced; you'll put the gown in storage, return the tux, put the cake top in your freezer, and dry the flowers. Professionally produced wedding photography will be one of the things which will become more valuable to you as each wonderful year of your life together passes. As the years go by and your family grows, the thing that will still be as fresh as the day you got married are your treasured photographs. You will be able to sit on a rainy day or on special occasions with your family and reminisce about the day it all began. Someday your grandchildren may even giggle at how beautiful and handsome grandma and grandpa were. On each wedding anniversary you will be able to relive the excitement, the joy, the emotions that you felt on that most special of days in your life when you sit with a glass of wine together and celebrate your union. Your wedding day will only happen once. Trust the responsibility of preserving those memories in beautiful photographs to an experienced pro and you'll never regret the investment.

Packages

All our packages are designed to offer you the best value on the products and services which most couples desire. You will discover that they will save you tons of money over ordering them separately. However, should you discover that the package which you are most interested in either includes something you're not sure you want, or doesn't include something you do want, please rest assured that we can personalize it to fit your needs and your budget. See more on this on the "Customizing your package" page (page 6).

Albums

All of our packages are available without the included album. We happen to think that the wedding album should be the centerpiece of your wedding photo collection. The photo disk is nice to have for security purposes, but something you can touch will greatly enhance your viewing experience. Still, we've built in the flexibility to exclude the album now and you can always order one later. You should know though, that human-nature and history show that most couples never get around to ordering later and chances are, like most things, it will only be more expensive later. So our advice is to consider saving the money today and include it in your package.

Customizing your package

Even though we have built our packages from the most popular features which most couples want, we understand that one size doesn't always fit all. With that in mind we have tried to also build in flexibility so that you have the ability to add or subtract items to build a package which better suits your needs and budget.

You can start with any of our packages and take out the album for instance if you really don't want one or find that its more affordable to wait for the album until later. You can order an album at any time after the wedding, but please keep in mind that separately its \$450.00 more and if prices are increased later on you will have to pay the current higher price.

You can take out the Deluxe Leather album and add back in a Coffee Table Keepsake Book instead which would reduce your investment. Add additional clone albums or books from 30% to 50% off.

You can add a complete set of 4x6 numbered preview prints in a handsome storage box.

You can build your own package from scratch from our a la carté list on the next page.

We are most interested in your satisfaction, so to that end if you have something completely different in mind please bring it up to us and we will do our best to accommodate your needs.

Here's an example of the tremendous value built into our packages:

6 Hour package (\$2649) includes:

6 hours of continuous coverage with photo disk	\$1550.00
2nd photographer	\$200.00
Engagement Session	\$99.00
10 x 10 Deluxe Luxury Leather Album	<u>\$1349.00</u>
Total if purchased separately	\$3198
Package Price	\$2649

You save \$549 when you purchase as a package!

Lets say you would like to enjoy the savings but your budget for photography won't allow it. You could then take out the album and keep everything else for \$1750.00. You could just go with that and you would still get the 6 hour coverage, 2nd Photographer, Engagement session, Photo Disk with your digital files, End-user license agreement, and Online viewing.

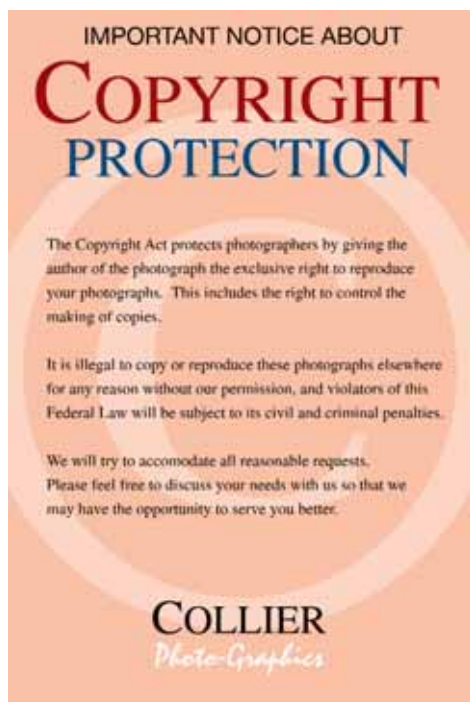

You could add back in a set of 4x6 prints and storage box for a total of \$1950.00 or you could forget the 4x6s and add a coffee table keepsake book for a total of \$2250

Its easy to design just exactly the package you want and can feel comfortable with for a price that feels comfortable to your budget.
